The Bolton Group is an Italian, family-owned company that has produced and distributed a wide range of innovative, sustainable and high-quality branded consumer products for over 75 years.

The Group is committed to conducting business with fairness, integrity and respect for the law and for its values respecting both the planet and the people, starting from its **Code of Conduct** and its **Human Rights Policy**. The Company also expects all its partners to act responsibly and with integrity.

Bolton values transparency and encourages a listening environment. The **Bolton Speak Up Policy** summarizes our commitment and the procedure to be followed in the event of wrongdoing or violation of our Code of Conduct, either internally or by third-party partners of the Company.

As described in the Policy, if someone observes, hears about, or suspects any wrongdoing or unethical conduct at work, they are encouraged to approach their line manager / supervisor or HR in the first instance to raise the concern. If they do not feel that appropriate action has been taken to address their concern and / or wish to raise their concern anonymously, they are encouraged to use the **Bolton Speak Up** platform.

By doing so, the Reporter provides the Company with the opportunity to follow up and address wrongdoing or unethical behavior at work which may damage the Company's reputation, success and performance both now and in the future. It also ensures that the Company can continue to provide a safe and inclusive work environment for all.

Our Policy protects the anonymity of the Reporter, and the Company does not tolerate any form of retaliation against anyone for speaking up. This allows reporters to raise concerns in good faith about suspected wrongdoing or ethical behavior at work.

The Bolton Group's Speak Up Policy aims to clarify when and how internal and external parties, as defined hereafter, can make a Speak Up report and explains how it is handled within a reasonable time frame to take appropriate action.

1. Background and objective

Bolton Group has established a single and comprehensive violation reporting system to report and consistently manage possible Wrongdoings (Whistleblowing Management System), including Grievances (Grievance Mechanism).

The objective of this document is to describe the process of managing the Whistleblowing Reports that includes receiving, analyzing, and handling the report. The procedure defines the reportable issues, the parties allowed to make the report and the management process – including the organization, roles & responsibilities – that both the Whistleblower and the companies must follow.

2. Scope

This procedure applies to Bolton Group S.r.l. and its subsidiaries, hereinafter Bolton Group, including all Internal and External reporting parties (*see below sect. 8*) to whom the guarantees indicated herein are extended.

- Violations of the local Corporate Liability regulations like, for instance in Italy, the Legislative Decree no. 231/2001 and the company compliance model.

4. Reference documents

Legal framework and other relevant references that are the basis for this procedure and its processes:

- EU Directive no. 1937/2019 on the protection of persons who report breaches of Union law and its local transpositions;
- EU Regulation no. 679/2016 “General Data Protection Regulation - GDPR” and its local transpositions;
- International ISO 37002 “Whistleblowing management systems”;
- UN International Principles;
- Other local regulations regarding wrongdoing and whistleblowing acts (e.g. US FCPA, UKBA, others).
- Other local regulations regarding Organisational, Management and Control Model (e.g. Italian Legislative Decree 231/2001 “Administrative responsibility of entities”, others);

5. Principles

The persons involved in the activities regulated by this Policy must operate in compliance with the regulatory, organizational and powers system and with the principles established below:

Confidentiality and anonymity

The identity of the Whistleblower should not be disclosed, without the Whistleblower's consent, to personnel not involved in the handling of the report.

It may only be disclosed, for instance, if strictly necessary for the handling of the report and, in any case, limited to whom is responsible for the management of the Whistleblowing Report, as described in this Procedure. In this case, the Whistleblower must be promptly informed.

Confidentiality and anonymity are observed also by adopting a dedicated whistleblowing tool ensuring cryptography systems.

Transparency

The activities regulated by this Procedure must be managed in a way that ensures transparency in the performance and prompt, full and truthful disclosure of their process to ensure effective control and monitoring.

Impartiality, independence and professionalism

Whistleblowing Reports must be managed to ensure necessary independence conditions are maintained and meet required objectivity, competence and professionalism diligence.

To ensure this, Tiers from the BU and BG level will be part of the decision-making process in relevant Committees. The responsibility for the final decision remains on the Tier in charge of the issue.

Prohibition of retaliation protecting Whistleblowers and other interested parties involved

The prohibition of retaliation exists if the Whistleblower has made the Whistleblowing Report based on well-founded reasons.

The principle applies to reports received via any channel, even if the process is not regulated via this procedure.

Based on the principle of the “prohibition of retaliation”, taking the following measures against the Whistleblower are not allowed:

- dismissal, suspension or equivalent measures;
- downgrading or non-promotion;
- change of duties, change of place of work, reduction of salary, change of working hours;
- suspension of training or any restriction on access to it;
- negative merit notes or references;
- the adoption of disciplinary measures or any other sanction, including a fine;
- coercion, intimidation, harassment or ostracism;
- discrimination or otherwise unfavorable treatment;
- failure to convert a fixed-term employment contract into a permanent contract, where the employee had a legitimate expectation of such conversion;
- the non-renewal or early termination of a fixed-term contract;
- damage, including to a person’s reputation, in particular on social media, or economic or financial loss, including loss of economic opportunities and loss of income;
- improper listing on the basis of a formal or informal sectoral or industry agreement, which may result in the person being unable to find employment in the sector or industry in the future;
- the early termination or cancellation of a contract for the supply of goods or services (in case of the Whistleblower is an External Party);
- the cancellation of a license or permit;
- the request to undergo psychiatric or medical examinations.

Permanent seats. It is composed by the BU Compliance Speak Up Manager (or similar function specifically appointed, also ad interim), as chair, and the BU HR Speak Up Manager.

Non-permanent seats. On a need base, the heads of other functions / companies of the BU.

- It meets periodically/once a month to:

- Manage BU Whistleblowing Reports; once per month;
- Report an overall and aggregate assessment of the reported events to the BU Management Body; once per quarter;

- It meets on request to:

- on request to:
- Escalate high risks and complex reports to the Bolton Group Speak Up Committee (*cfr. sec. 6. Roles & Responsibilities, Reallocation & Escalation Cases, Escalation*).

Case of Conflict: Reallocation & Escalation

Reallocation

It occurs when a potential Wrongdoing has been allocated to the wrong BU or BG Speak Up Manager (e.g. a Grievance, under the responsibility of HR Function, allocated to the Compliance Function) and will be correctly re addressed to the relevant function.

Escalation

When certain conditions occur, the case will have to be escalated from the BU Speak Up Manager to the Bolton Group Speak Up Committee. These conditions are in Whistleblowing Report are related to:

PEOPLE

Concerns/one of the following people are involved:

- A statutory Director of one of the Bolton Group legal entities;
- A BU CEO and/or one of his/her's first direct reports;
- A member of the Statutory or Controlling Bodies.

SEVERE POTENTIAL IMPACT

May have a qualitative (5% of the BU OP) and quantitative impact at Bolton Group level because:

- It may affect the financial statement.
- There may be a risk of a severe reputational damage for the Bolton Group/BU.

TYPE OF ACTIVITIES OR RISK

Activities or processes that:

- are directly (or mainly) managed at Bolton Group level;
- there may be a conflict of interest, even potential, with the BU Speak Up Manager and the Whistleblower and/or the person concerned;
- there is a concrete risk to the confidentiality of the Whistleblower;
- Due to the complexity of the issue, the activity is more in alignment with the Group Speak Up Committee;

7. [WHY] Whistleblowing Reports

Bolton Group Internal Parties and External Parties that identify possible Wrongdoings are required to report them in case of, for example:

- violations of the Code of Conduct;
- violations of the Human Rights Policy;
- fraudulent and corruption activities;
- violations of free competition;
- violations of laws, regulations or national and international measures;
- discriminatory behavior or cases of harassment at work;
- any situation in which a person's personal interest, even if only potential, may interfere with the interests of Bolton Group (conflict of interest).

Moreover, in compliance with the EU Directive no. 1937/2019 and the relevant local transpositions, the Whistleblowing Reports may also concern violations of European laws and local regulations in the following areas:

- product safety and conformity;
- environmental protection;
- food safety;
- public health;
- consumer protection;
- personal data protection;
- infringements affecting the financial interests of the Union;
- violations of the internal market, of Union rules about competition and State aid, violations of corporate tax rules.

8. [WHO] Reporter

The Whistleblowing Reports may be done by:

- Internal Parties (*cf. sec. 3, Definitions*);
- External Parties (*cf. sec. 3, Definitions*).

9. [HOW] Reporting Channels

Bolton has set up a new comprehensive violation reporting mechanism for Whistleblowing Reports, including *Grievances*, to enhance the existing channel:

Traditional [EXISTING]

For Grievances **received** by the Local HR Department that remains responsible for the case management according to the local procedures, if any.

The reports received via this channel are outside the scope of this procedure, nonetheless the principles of impartiality and non-retaliation still apply.

Speak Up [NEW]

For all Wrongdoings, including Grievances, **received**

- via the Speak Up platform, using [the website](#), or calling the toll [free phone number](#).

- also verbally with the relevant BU Speak Up Manager.

10. [WHAT] Case Management Process

The internal Whistleblowing Reports received via the Speak Up channel must be managed following the activities described below.

a. Receiving

When receiving a Whistleblowing Report, the BU Speak Up Manager must inform the Whistleblower that the report has been received within 7 days of receipt.

b. Triage

This phase verifies that the subject and the content of the Whistleblowing Report are aligned with this procedure, allocated to the right Speak Up Manager and, if need, Reallocated to the appropriate Manager (*cfr. sec. 6. Roles & Responsibilities, Reallocation & Escalation Cases, Reallocation*).

The BU Speak Up Manager is responsible for ensuring all appropriate checks are carried out on the facts outlined in the Whistleblowing Report received, guaranteeing they are carried out as quickly as possible in accordance with the completeness and accuracy of the triage.

If the results from the triage step are confirmed as valid, the process continues with the further phases indicated below.

If not, the BU Speak Up Manager informs the Whistleblower.

c. Assessment

The assessment step of the Speak Up system sorts and prioritises received Whistleblowing Reports based on the likelihood and potential impact of the risk. The assessment conducts targeted inspections that make it possible to identify, analyse, and evaluate elements that might confirm whether the reported events are well-founded.

The BU Speak Up Manager ensures the performance of the necessary inspections: either directly, at the concerned BU, or through specific personnel including independent external consultants in possession of adequate seniority level, to obtain the necessary information to perform evaluations. In this phase, the BU Speak Up Manager assesses whether to initiate a “spot” audit. The activities are undertaken within the BU Speak Up Committee, ensuring the highest level of effective monitoring and internal controls.

The Assessment step may identify the need for involvement of the following functions:

- Bolton Group Speak Up Committee: If the BU Speak Up Manager escalates (*cf. sec. 6. Roles & Responsibilities, Reallocation & Escalation Cases, Escalation*) the report received, he/she involve the “Bolton Group Speak Up Committee”;
- Group Internal Audit: if it is necessary and requested, the Bolton Group Internal Audit performs activities on the Whistleblowing Report(s) to verify the legitimacy or unfoundedness of the Whistleblowing Report(s);

The BU Speak Up Manager must give feedback to the Whistleblower within 3 months of the receipt of the report.

At the end of the assessment, in case all relevant elements that might confirm whether the reported events are well-funded have been gathered, the BU Speak Up Manager may proceed to conclude the Whistleblowing Report. In case the relevant elements are not sufficient or sufficiently clear to confirm the reported events are well-funded, the BU Speak Up Manager may proceed with the further investigation phase.

d. Investigation

The investigation phase must be impartial to the Functions concerned, the Whistleblower and the subject of the report and must be conducted without bias. The subject of the wrongdoing should be given the right to respond as required and the option to be assisted.

This phase must be performed including but not limited to the following principles:

- investigations should be adequately resourced;
- clear terms of reference and scope should be defined and documented;
- the investigation should secure and protect evidence;
- personal data should be managed in line with data protection (*paragraph “7. Principles”*);
- communication should be clear and unambiguous;
- the Whistleblower must be periodically informed about the progress steps.

Moreover, the HR Function at the relevant level must be involved in the investigation phase to ensure that protection measures for the Whistleblower and the reported person are implemented and to assess the impacts from a labor law point of view.

e. Closing

The closing phase designates the end of the process.

A case must be closed if no more actions are considered necessary including further investigations.

During that phase, the following steps must be considered:

- concluding an investigation, including issuing findings;
- acting in response to any recommendations (e.g., disciplinary actions);
- communication to personnel responsible for supporting and protecting the Whistleblower and other relevant interested parties;
- identifying any ongoing protection measures;
- collecting feedback from the Whistleblower and other relevant interested parties;
- archiving the documents processed during the previous phases.

If the assessment phase confirms the Wrongdoing, the relevant local manager may be involved to define the action plan about the areas and processes affected by the Whistleblowing Report.

Moreover, the BU Speak Up Manager with the support of the Local Speak Up Manager will:

- define the measures to resolve the wrongdoing;
- continuously monitor the effectiveness of those measures;
- define disciplinary measures, if applicable;
- involve the relevant authorities, if necessary.

The actions taken and any findings must be promptly communicated to the Whistleblower including all necessary details.

11. Countermeasures

Remedial measures are actions that are taken to correct something which has gone wrong, and to minimize the possibility of this wrong (or similar events) occurring again in the future.

Disciplinary action will be carried out by the local entity, under the supervision of the relevant Speak Up HR Manager, and in consultation with the local HR.

Part III FINAL DISPOSITIONS

12. Rights of Whistleblowing Report Subjects

The relevant Speak Up Manager responsible for the Whistleblowing Report will inform the subject of the report that a report was made about his/her conduct at the appropriate time. This may be directly or via the Line Manager or HR Function. If measures are needed to preserve evidence, such persons will only be informed after these measures have been taken.

13. Document storage and traceability

The Whistleblowing Reports must be tracked in compliance with privacy requirements.

In case of Whistleblowing Reports made by phone or by voice, the report must be tracked by:

- recording the conversation, with previous authorization of the Whistleblower;
- writing minutes of the meeting signed by the Whistleblower for approval.

All the documents relating to the whistleblowing report must be stored for as long as necessary to close the report. Unless otherwise indicated by local law or, if stricter, internal agreements, the requirement to retain Whistleblowing documentation expires after 5 years of notice to the Whistleblower of the final result of the whistleblowing process.

14. Communication and training

The Company should provide appropriate measures:

- to make the Internal Parties and External Parties aware about the Speak Up system, including its policy, the process to follow and the compliance requirements;
- To train the Speak Up Managers and the personnel supporting the process.

15. Process monitoring and improvements

Area improvements. Based on the type of Whistleblowing Reports, the BG Speak Up Committee will monitor and evaluate process improvements in the areas where the violations occurred at BG and/or BU level. The measures will be developed and undertaken with the support of the relevant BU's and Functions.

System improvements. The system will be periodically reviewed and updated as necessary to ensure its effectiveness and compliance with evolving local legal requirements. Based on such specific local legal requirements the BU's, in alignment with the Bolton Group Compliance Speak Up Manager, may implement stricter BU local rules when this aims to ensure a higher level of protection for the reporter in compliance with the law.

16. Privacy

Processing of personal data will be managed in accordance with Regulation (EU) 2016/679 (GDPR), as well as any other applicable laws and/or regulations, including local ones.

Both personal data of the Whistleblower - if the Whistleblowing Report is not anonymous - and the personal data of the Person Involved and/or of any third parties, will be processed, as well as any further information collected in the context of the investigation that is necessary and appropriate to ascertain and verify the merits or otherwise of the Whistleblowing Report.

All Personal Data not useful for the Whistleblowing Report management, must not be collected. Moreover, in case of accidental collection, these data must be immediately deleted.

The data controller will be each company of Bolton Group to which the Whistleblower and/or the Person Involved belongs, as well as the parent company, which will act as autonomous data controller in each case.

If there is a risk that the exercise of the rights granted according to Chapter III of the GDPR could result in actual and concrete prejudice to the confidentiality of the identity of the Whistleblower, and that the ability to effectively verify the merits of the Whistleblowing Report or to gather the necessary evidence could be compromised, the right is reserved to limit or delay the exercise of said rights, in accordance with the applicable legal provisions. Under no circumstances may the Person Involved or any third party, exercise their rights of access to obtain information on the identity of the Whistleblower.

Bolton Group reserves the right to assess, on a case-by-case basis, the specific circumstances and conditions that would make it advisable to specifically inform the Person Involved about the conclusion of the verification procedure initiated, to avoid abuses and in any case guarantee his or her protection of rights as data subject.
